

Vac Checker[®]

by DD|COMPOUND

VACUUM INFUSION AT ITS BEST

Quickly and exactly check of the vacuum with the Vac Checker® enables parts of the highest quality.

Only a sealed infusion setup and a high vacuum enables parts of the highest quality made by vacuum infusion. The Vac Checker® by DD-Compound is a digital pressure gauge that measures the absolute pressure and displays the immediate change in pressure digitally. The maintenance-free pressure sensor delivers precise and reliable measurements. With a measurement range of 1,100 to 0.00 mbar and a resolution of 0.01 mbar, the user can check the vacuum precisely and safely. This means he can find signs of leaks or weaknesses quickly and easily. This ability to detect changes in pressure quickly and exactly saves time and money during the infusion setup. In addition the Vac Checker® displays the evaporation temperature of water.

Advantages of Vac Checker®

- Measurement range from 1.100 to 0,00 mbar
- Resolution: 0,01 mbar
- Parameter: mmHg, Torr, mbar, hPa, micron, inH₂O, inHg, Pa
- Display of the evaporation temperature of water
- Resistant to water and dirt (IP42)
- Connection adapters for pipes with an internal diameter of 6 mm, 8 mm and 10 mm
